CAST DESIGN

CAST DESIGN IS AN IMPRESSIVE ACRYLIC SHEET, WITH ONE OR BOTH SURFACES FINISHED WITH AN EYE-CATCHING, VIBRANT COLOUR.

Whether it's for interior design and elegant furniture, or showcases and POP displays, choose from the full spectrum of colour to attract attention and create your desired mood.

The lustrous satin-like texture — with its warm shading — won't stain, or be contaminated through finger marks. The texture is even retained after processes such as thermoforming and bending, ensuring that the finished article remains true to your original concept.

CHARACTERISTICS

- Wide variety of colours.
- Tactile surface that doesn't stain, reduces finger marks and attracts less dust.
- Softens harsh colours and diffuses light.
- Easy to use, shape and maintain.
- Frosted look is retained even after thermoforming, sawing and drilling.
- Resistant to many chemical products.

TECHNICAL INFORMATION

CAST Design has similar technical specifications and physical properties as CAST standard sheet. Please refer to our Polycasa® manual for further details.

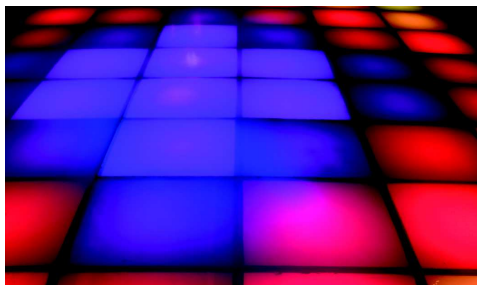

APPLICATIONS

With its many aesthetic advantages, CAST Design is perfect for manufacturers of visual communication material and interior design professionals.

PRODUCT RANGE

- Available in a wide variety of thicknesses. Please refer to our Product Selector.

Please contact your local customer service centre for a complete product overview. For details see back of brochure.

PRODUCT IDENTIFICATION

CAST Design is an acrylic sheet with non-glare surfaces.

Due to its intrinsic properties, it is specially designed to intensify light dispersion, with its matt surfaces increasing the dispersion effect.

Using this material in displays will enhance the image with the result being very clear.

COLOURS

The illustrated colours may vary from the real colours due to limitations in printing technique.

	COLOURS	REF.	LIGHT TRANSMISSION
CAST DESIGN			
	Arctic Mist	1000	89%
	Iceland White	2008	86%
	Everglade Green	1512	86%
	Evian Blue	1875	67%
	Antarctic White	2000	60%
	Tahiti Blue	1809	35%
	Cape Town Yellow	1212	62%
	Seville Orange	1307	47%
	Bordeaux Red	1600	45%
	China Rose	2614	48%
	Bali Green	1549	9%
	Havana Brown	1438	23%
	Parma Violet	2701	55%
	Petra Rose	2608	24%
	Mexican Orange	2305	43%
	Village Green	2512	44%
	Nordic Blue	2811	50%
	Glacier Green	1560	32%
CAST DESIGN FLUORESCENT			
	Cypress Green	1571	81%
	Bavarian Green	1572	73%
	California Yellow	1271	75%
	Lisbon Orange	1371	62%
