POLYCASA PETG IS A TOUGH, CLEAR MATERIAL THAT OFFERS MANY SOLUTIONS FOR BOTH INDOOR AND OUTDOOR APPLICATIONS.

This extruded sheet offers possibilities for designers and fabricators, from simple shapes to the most complex designs (where it doesn't lose any of its toughness). PETG is easy to mould, and does not require predrying before use (in contrast to other common materials), which reduces processing costs and time required.

Plus, the high impact performance allows use of a thinner gauge sheet than with other common materials — another way of lowering material costs.

Our UVGrade is not intended for food contact and is therefore not covered by this warranty.

APPLICATIONS
- Bus shelters.
- Poster glazing.
- Machine guards.
- Medical appliance packaging.
- Displays & signs for external use.
- Refrigerators and cold storeroom equipment.
- Bicycle safety helmets.
- Food containers.
- Lenticular lenses.
- Graphic arts.
- Lighting controllers for hazardous areas.
- Motorcycle windshields.

PRODUCT RANGE
- Available with UVP or anti-reflex features.
- Standard sheet thickness range from 0.8 to 10 mm. (12 and 15 mm are also available but subject to special order.)
- Available in standard clear colour, and a range of different opal shades.
- Patterns; Prismatic, Haircell and Impala patterns and also colours are available on request.
- A range of special colours with or without UV protection can be produced, subject to special conditions.
- Standard sheet dimensions are from 0.8 to 1.5 mm, 2050 x 1250 (width) mm; from 1.5 to maximum thickness 3050 x 2050 mm or 2050 mm x 1250.
- Overlength and special sizes on request.

Please contact your local customer service centre for a complete product overview.

For details see back of brochure.
